Before purchasing this appliance, please read the important energy cost and efficiency information available from your dealer. Manufacturer reserves the right to discontinue, or change, at any time, specifications or designs without notice and without incurring obligations.

PAINLESS PAYMENTS

Often the need for comfort doesn’t always match the immediate ability to pay for it. So Payne makes life a little easier with 6 or 12 months of deferred interest, minimum monthly payment financing. There is a minimum monthly payment of 2.5% of the balance or $30, but if you pay it off within the promotional period, you pay no interest.

Or, spread your payments over time with a reasonable fixed APR rate finance charge. Either way, you can enjoy comfort now when you need it with a Payne® dealer who offers GE Capital financing.

SINCE 1914, WE’VE BEEN DELIVERING ON OUR PROMISE TO CREATE SENSIBLE, AFFORDABLE PRODUCTS THAT DO WHAT YOU NEED THEM TO WHEN YOU NEED THEM TO. BECAUSE THE BOTTOM LINE IS YOU NEED HEATING AND COOLING FOR YOUR HOME – A COST-EFFECTIVE SYSTEM TO KEEP YOU COMFORTABLE. HOMEOWNERS WHO CHOOSE PAYNE ARE DELIGHTED IN THEIR DECISION BECAUSE IT IS SUCH A SENSIBLE CHOICE THAT SAVES THEM MONEY AT THE PURCHASE, AND KEEPS PERFORMING SEASON AFTER SEASON.
OUR PROMISES

The Well-Built Warranty.
Every heat pump and fan coil we build is covered with a 10-year parts limited warranty.* This warranty applies to the original owner of the properly registered product.

Run-tested and right for you. Because we only feel comfortable providing you with long-lasting comfort and efficiency, only products that complete our testing with a 100% success rate make it out of the factory.

WHAT IS SEER and HSPF?

Like a car’s mpg, SEER (Seasonal Energy Efficiency Ratio) is the measure of cooling efficiency for a heat pump. It tells you how much heat is removed from your home in relation to how many watts per hour it takes to reach your set comfort level. HSPF (Heating Seasonal Performance Factor) is the measure of heating efficiency. The higher the number the better, because when you waste energy you waste money.

To give you an example, the minimum SEER level for cooling operation in the U.S. is now 13. Payne offers models that exceed that, giving you even better efficiency.

PEACE OF MIND

When you purchase Payne® products, you will soon find out why they are right for you. Our products aren’t just affordable – they’re built to perform.

ENVIRONMENTALLY-SOUND R-410A

These heat pumps and fan coils use the EPA-approved and chlorine-free R-410A refrigerant, an environmentally-sound alternative to R-22, for minimal effect on the Earth’s ozone layer.

HEAT PUMPS

PH16NA

17 SEER

- ENERGY STAR®
- Two-stage compressor
- R-410A Refrigerant
- Deluxe dense grill

PH15NB

15.5 SEER

- ENERGY STAR®
- Single-stage scroll compressor
- R-410A Refrigerant
- Deluxe dense grill

PH14NB

14 SEER

- ENERGY STAR®
- Single-stage scroll compressor
- R-410A Refrigerant
- Standard grill

PHMANP

10.5 SEER

- Diverse grill option available for improved protection.

INDOOR FAN COILS

PVAC

- Multi-Position
- High-Efficiency, Variable-Speed ECM Motor
- R-410A Refrigerant

PFBAC

- Multi-Position
- High-Efficiency, ECM Motor
- R-410A Refrigerant

PP4M

- Up-Flow, Apartment
- R-410A Refrigerant

PFMANP

- Multi-Position
- High-Efficiency, ECM Motor
- R-410A Refrigerant

- Single-stage scroll compressor
- R-410A Refrigerant
- Standard grill

- Multi-Position
- High-Efficiency, ECM Motor
- R-410A Refrigerant

- Single-stage scroll compressor
- R-410A Refrigerant
- Deluxe dense grill

An important part to complete your new heat pump system is the indoor fan coil. Our models provide exceptional heat transfer for heating and cooling effectiveness and efficiency. We offer three models that are right for the heat pump you have selected.

1 Durability fan motor — Providing year after year of smooth-running operation in extreme temps, our fan motor ensures reliable comfort.

2 Effortless heat or cool — The reliable reversing valve easily switches functions from heating to cooling and back again, as the temperature demands.

3 Good looks — The corrosion-resistant, painted exterior finish will stay looking good now, and for years to come.

4 Reliable R-410A compressor — You want the most important part of the entire unit to stay running strong, right? With built-in protective features, our compressor operates quietly and reliably season after season.

5 Smooth and quiet — Rubberized isolation pads create a buffer between the base pan and the compressor to absorb vibrations and minimize noise.

*Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate at payne.com for complete details.
